### Experience

---

#### Full Stack JavaScript Engineer

Anglaar Digital Agency

London, England, UK

05/2023 - Present

- Led the design and development of multiple enterprise-level microservice applications of Commerce Experience Group, reducing load times by 40% using the latest technologies of **AWS, Python, Django, Cosmos DB, MongoDB, PostgreSQL, Key Vault, and MS Graph**.
- Designed and implemented scalable APIs and background workers for managing first- and third-party proprietary licenses using **Node.js, lambda functions**, and other **AWS cloud technologies** that serve millions of license requests daily.
- Led the development of several products, from identifying system requirements and partner dependencies to workload balancing, software implementation, engineering, testing, and configuring metrics, alarms, monitors, and dashboards.
- Enriched system metrics by integrating the platforms with telemetry; facilitated in-depth logging by correlating APIs with vector contexts.
- Continuous Integration/Deployment Pipeline Integration, pull requests, code reviews, load/stress testing, unit/integration/e2e testing

#### Node.js Backend Engineer (Freelance)

Fiverr

London, England, UK

10/2022 - Present

- Implemented enterprise applications of Prime's Content Experiment Platforms using **React**, MONGODB, postgresSQL, unit testing, Node.js, Express.js, AngularJS, AWS, and DynamoDB.
- Designed and developed systems facilitating marketers to perform various optimization experiments within the Prime ecosystem.
- Automated and optimized business logic for the core marketing experiments, including A/B, Auto-Targeting, and Multivariate Testing.
- Completely automated the marketing platforms' user-experience testing process by integrating Nightwatch Selenium.
- Designed and implemented enterprise fintech and medical applications for my clients doubling monthly revenue by 200% using **Node.js, MVC, MSSQL, Django, react, redux**, and jQuery.
- Engineering lead for designing and developing the fintech transaction dashboard that provides a rich visual summary of daily user purchase patterns powered by [Google Chart](#). Used by the board of directors in the decision-making process.
- Engineering owner of the E2E experience of the commerce platform's cancel, return, and exchange systems (PC/Mobile).
- Integrated multiple third-party systems with the escrow platform, including Alipay, increasing global revenue by 23% in the first quarter.

#### SEO Specialist

Freelance

Lagos, Nigeria

03/2023 - 12/2023

- **Fashion Street:** Boosted my clients SEO score by 30% making their website show at the first three links of google search

### Education

---

#### Higher National Diploma

Lewisham College

London, England, UK

10/2023 - 10/2025

- Major in Information technology

### Projects

---

- **ANGLAAR BLOG:** A blog creation website where you can write and publish blogs (10/2023)
- **TAXI ORDERING MOBILE APP:** Designed and developed a cab ordering mobile app where you can order the nearest taxi (08/2023)
